The BusinessBike

Innovative company — mobile employees

The future
of mobility

The BusinessBike

Cycling is healthy and eco-friendly. For this reason more and more companies are supplementing their vehicle fleet with business bicycles. This saves money and parking space. The BusinessBike provided by nextbike — the bicycle sharing system, also promotes your company at the same time.

SPIN THE PEDALS — INSTEAD OF QUEUING IN RUSH-HOUR TRAFFIC

Do your employees get stuck in rush hour chaos? Do they often have to shuttle between different clients or branch offices? Do your employees need an efficient connection between the office and the train station? Do you want to provide them with an easy solution that allows them to grab a breath of fresh air while running errands? With the nextbike bicycle fleet you can offer all this to your staff. The bicycle is the fastest urban mode of transport, up to a distance of 5 km. It is independent of schedules and parking lots. With the BusinessBike you save procurement costs and maintenance efforts.

HOW IT WORKS

030 69205046

Call the hotline.

Open the lock with the announced code.

Lock the bike at the nextbike-station with the combination lock. Call the hotline and name the station.

Thanks to the advertisement space on the bicycles you gain an eye-catching and image promoting presence in your city, as well as fitter and more satisfied employees.

HOW DO YOU GET BUSINESSBIKES?

- › Company account: With this option your staff can use all nextbikes 24/7 for free — in your city or worldwide.
- › Company rental station: We establish a rental station at your place of business. The bicycles can be rented here and returned at any other nextbike station in the city.
- › For company outings we put the required amount of bicycles at your desired location.
- › A separate accounting of private and business trips can be issued.

nextbike — THE BICYCLE SHARING SYSTEM

nextbike GmbH was founded in Leipzig in 2004 by Ralf Kalupner. The network of public bicycle sharing cities currently has 10.000 bicycles in 7 countries on 3 continents. In Germany we are present in more than 30 cities and regions, with the BusinessBike setup for Deutsche Bank in Frankfurt-Sossenheim and Frankfurt-Eschborn and dozens of other companies.

Your advantages

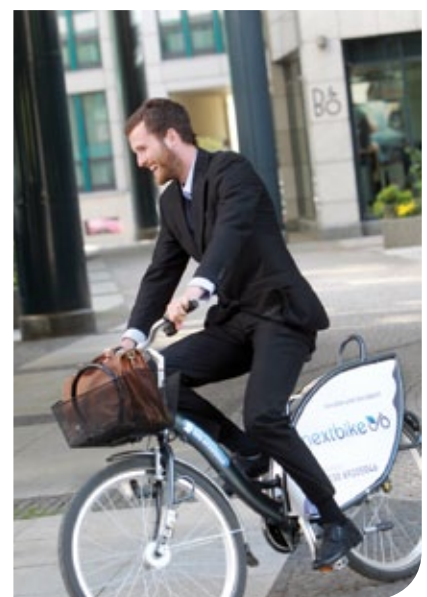

Mobile and active employees are more motivated and less ill.

Branding of the bicycles guarantees a strong promotion effect for your company.

All bicycles can be booked in advance with the nextbike reservation system.

You receive a statement about the use of the bicycles by your staff with every monthly invoice.

With the company account your employees can use all the nextbikes in your city and worldwide.
